C#

## PROFILE

Highly skilled and results-oriented worker with solid preparation in networking software and development operations management. Proven ability to assess and manage complex obstacles; viewed as a strong troubleshooter. Successful in intense and winning environments, providing decisive team leadership, and amazing cooperation skills.

## EXPERIENCE

2021 - 2022

### Sales Market Lead

NISSAN

Part of a very successful team at Nissan to not only boost sales, but also acquire customers through skilled marketing. Gained huge communication skills, and also how to navigate in the business world as a technical specialist.

2019 - 2021

### Order Supply Facilitator

TRADER JOE'S

During University courses, I had a part time job at the beloved Trader Joe's. Learned amazing new ways to come together as teams. Facilitated orders, and organized events to acquire not only students in the local area, but extend outward into Tempe as well.

2022-PRESENT

### Chief Technical Officer

PAIRA

Coordinated Frontend and Backend development to create a custom API and user interface for the mobile application Paira. Developed fullstack app capable of scaling, using enterprise level software such as Azure DevOps and MongoDB; Available on all platforms.
